- The Center has been **105** days **without** a Civil Servant **Lost Time Injury** (Record 251 days).
- The following first aid case involving a civil servant was reported:
  - A SMC employee sustained a contusion to the left hand while moving a cart through a doorway. The hand became caught between the cart and the door jam. The employee was wearing leather gloves.

**Restricted Work Incidents** - When employees suffer work-related injuries or illnesses and are put on "light" restricted duty, the incident is classified as a restricted work case. OSHA requires that we track these incidents and correlate the number of restricted days associated with each of these cases. Thus, a new mishap category is included in the mishap triangle.
